6. ☐ Interview Summary (PTO-413),
Paper No./Mail Date _____
7. ☒ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Ballas on February 10, 2006.

The application has been amended as follows:

Claims 30-51 have been canceled

The title has been changed to --LCD manufacturing method involving forming a main seal pattern by screen printing and a dummy seal pattern by selective dispensing--

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: none of the prior art taught or suggested forming a main seal pattern on one substrate by a screen printing method and forming a dummy seal pattern on the same substrate as the main seal pattern, wherein the dummy seal pattern is formed by a selective dispensing method. The prior art did not teach forming the two seal patterns using different methods, and therefore it would not have been obvious to form each of the seal patterns using the specific methods that are claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Chung whose telephone number is (571) 272-2288. The examiner can normally be reached on Monday-Friday from 8:30 am to 5:00 pm.
